Personal Details:

Languages known
Hindi & English

Professional Summary:

- **Flutter Developer** specializing in high-performance, cross-platform Android & iOS applications.
- **Expertise:** Dart, Provider, GetX, and clean architecture (MVC/MVVM).
- **Technical Skills:** REST APIs, Firebase Suite, Push Notifications, and Cloud workflows.
- **Advanced Integration:** Payment gateways, Google Maps, Socket-based chats, and TFLite (ML).
- **Tools:** Git/GitHub, Postman, Crashlytics, and Agile methodologies.
- **Focus:** Delivering production-ready, responsive UI/UX with maintainable and optimized code.

Certificates & Trainings:

- Flutter Internship
- Salesforce Training
- C & Core Java Certified
- ITI COPA Certified

Experience Summary:

- **ExperienceFlutter Developer | Inventcolabs Infotech**
- Developing cross-platform apps with a focus on UI/UX, state management, and REST API integration.
- Managed full-cycle app development from Firebase setup to production-level deployment.

Training & Certifications

- **Salesforce Admin & Developer (Trainee) | Cyntexa:** Hands-on experience with LWC, Triggers, Workflows, and custom object architecture.
- **C & Core Java Certified | Easy Web Solutions:** Strong foundation in OOP, programming logic, and data structures.

Project Summary:

Inventco projects

1. Befit-Multi-Gym | AI Fitness , Social media & E-Commerce

- **Stack:** Flutter, Provider, Google Fit/HealthKit
- Built multi-gym dashboards, membership flows, and real-time health data sync.

2. FursatUK | Freelancing Marketplace

- **Stack:** Flutter, GetX, MyFatoorah
- Developed bidding systems, freelancer onboarding, and secure payment integration.

3. FaceReco | AI Attendance System

- **Stack:** Flutter, GetX, TensorFlow Lite
- Integrated **TFLite** for on-device face recognition with offline-sync logging.

4. Bawaba | Government Digital Locker

- **Stack:** Flutter, Provider, Cloud Storage
- Designed secure UI for digital document storage and government service directories.

5. Bawaba Kiosk | Printer & Log Management

- **Stack:** Flutter, Provider, Google Maps API
- Created real-time printer monitors and interactive map interfaces for kiosk management.

6. CrikClips | Cricket Social Media

- **Stack:** Flutter, Firebase, REST APIs
- Developed video feeds, group chats, and match organization modules.

7. DuePay | NZ Payment Wallet

- **Stack:** Flutter, Akahu API, GBG Cloudcheck
- Built wallet-to-wallet payments with **KYC/KYB** and real-time voice alerts.

Ecowrap projects

1. Ecowrap B2G | AI Waste Management, Vehicle Tracking & Payment Platform

Stack: Flutter, Dart, REST APIs, Google Maps, Firebase, AI Image Detection, Payment Gateway

Developed a government-focused waste management application for tracking collection vehicles, monitoring routes, and managing operational workflows. Integrated AI-based image detection to identify garbage types and verify collection activities. Implemented secure payment gateway integration for processing service fees and transactions.

2. **Ecowrap B2B** | Waste Pickup Booking, AI Classification & Live Tracking

Stack: Flutter, Dart, REST APIs, Google Maps, Firebase, AI Image Detection, Payment Gateway

Built a business-facing application that enables merchants and organizations to schedule waste pickup requests, upload waste images, and receive AI-based classification of materials such as plastic, glass, paper, and metal. Added real-time vehicle tracking, order status updates, and secure payment gateway integration for seamless transaction processing.

Other Projects:

- Chatbox-Real-time chat app using Socket.io & Firebase
- Live Tracker-Google Maps with real-time location tracking.
- Live Face Auth-Secure sign-in system using ML recognition.
- MM Properties-Real estate listings with complete UI & API.
- Offline Ludo Game-Built using Flutter Flame Engine.
- News App, Weather App, Music App, Todo App-API-driven learning projects.
